

More Easy, More Safe, More Efficiency

# Telescopic Belt Conveyor

## Your Reliable Partner!

Suzhou APOLLO Automation Equipment Co., Ltd is professional manufacturer who focus on automatic sorting and logistic conveying. Apollo products will make customers' life and work more easy, more safe and more efficiency.

APOLLO main products include Automatic Sorters, Vertical Conveyors, Telescopic Conveyor, Straight/Curve/Inclined Conveyors, Accumulation/Merging/ Diverter Conveyor and DWS series products, which these products integrate automatic weighing, barcode scanning, high speed automatic sorting and conveying, system feedback as well as software to realize smart logistic sorting and conveying. Apollo has gained our own brand popularity in China logistic fields, meanwhile we also export to overseas markets every year.

Through the use of APOLLO products and solutions, users can greatly reduce labor intensity and improve production efficiency to reduce cost and improve the economic benefit. At present, our products are widely used in the logistics center, the industrial production workshop, storage warehouses and other industrial fields.

APOLLO has senior mechanicals, electrical and intelligent control software engineers in the field, providing the feasible solutions and related products for logistics enterprises. Our customers involve many industries, such as National electric power measurement center, China tobacco logistics center, China Postal, Sophia, Oppein, Robam, Fotile, Giti tire, Double star tire, Moutai, Huadong Medicine, 999 pharmaceutical, Lianhua supermarket, Yonghui supermarket, Nike, Samsonite, Heinz China, Feihe, Yili and so on.

APOLLO, as an equipment manufacturer, has improved the expansibility of its current general-purpose conveyor through rich experience in material handling, which combined with modern intelligent control systems to meet customers' changing requirement in the future. Apollo's design follows the principle of simplifying the equipment operations and automating operations as much as possible in order to increase customer productivity and economic benefits.

**Please contact Apollo to learn more about the solutions and services that Apollo products can provide. Apollo will be happy to share more successful experience in the composition and system technology of various conveyors to improve the operational efficiency for users.**

### Application Industry

E-commerce

Third party logistics

Beverages

Food

FMCG

Pharmaceuticals

Clothes

Furniture

**More Easy, More Safe, More Efficiency**

# Mobile Type 15020

APOLLO is a leading manufacturer for general cargo sorting, loading and unloading with 20 years of experience in the technical team. No matter a single conveyor equipment or customized system solutions, APOLLO always can implement projects timely and reliably with rich production technology experience and professional knowledge.

APOLLO telescopic conveyor steel structure use finite element analysis, optimize the force structure and make the force of the frame more even, so the lifetime of conveyor get prolonged. At the same time, the maximum extension length and the minimum retraction length are guaranteed.

APOLLO has international experience in plant logistics innovation and optimization to provide customers with better logistics planning solutions.

Reserved maintenance window for maximum access into the machine for repair and maintenance.

One-stop services is available in APOLLO to help customer achieve maximum productivity.

# Fixed Type 15010

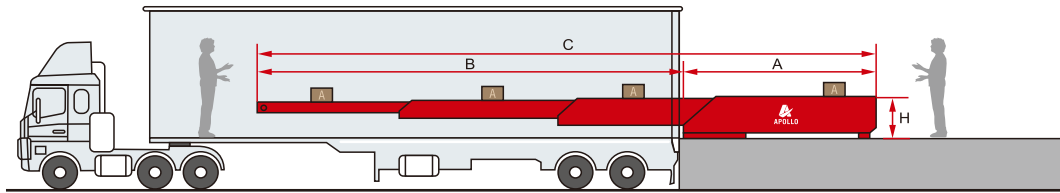

1. Your ideal choice for more safe and more efficiency requirements, confirm to the strict European CE certification, already used in many countries.
2. Suitable for minimum installation space, maximize extension length. (please refer to the technical specifications and model samples.)
3. High standard safety protection. All visible gaps are covered with rubber brushes, the full range of protective cover to avoid the operator's fingers, clothes are involved in the risk of the machine to the greatest extent.
4. The front end is equipped with safety anti-collision bar, effectively protect the operator's body and the products in the truck.
5. A full set of operation buttons improve the loading and unloading efficiency of goods in truck and bring convenient operation.
6. A variety of user-friendly configuration for customers' option.

# Models & Specifications

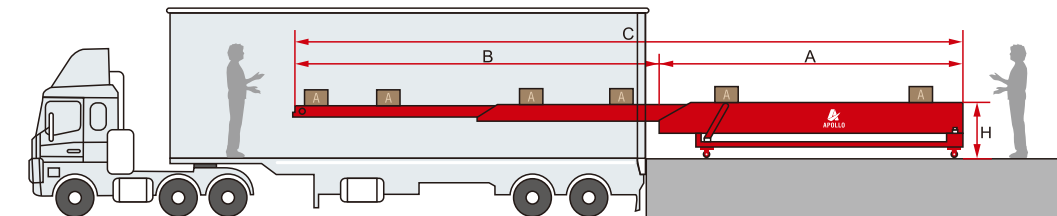

## 15010 Fixed Type :

Model	Sections	Total length C(mm)	Retracted length A(mm)	Extension length B(mm)	Height(mm)	Belt width(mm)	Installation way
A3-6+8	3	14000	6000	8000	800	600/800/1000	Fixed Type
A3-7+9.5		16500	7000	9500	800	600/800/1000	Fixed Type
A4-5+10	4	15000	5000	10000	900	600/800/1000	Fixed Type
A4-6+12		18000	6000	12000	900	600/800/1000	Fixed Type
A4-7+14		21000	7000	14000	900	600/800/1000	Fixed Type
A4-8+16		24000	8000	16000	900	600/800/1000	Fixed Type
A5-6+15	5	21000	6000	15000	950	600/800/1000	Fixed Type
A5-7+18		25000	7000	18000	950	600/800/1000	Fixed Type
A6-4.5+13	6	17500	4500	13000	1050	600/800/1000	Fixed Type
A6-5+16		21000	5000	16000	1050	600/800/1000	Fixed Type

Remark: The above is APOLLO standard models, if you need other sizes, please contact our sales freely.

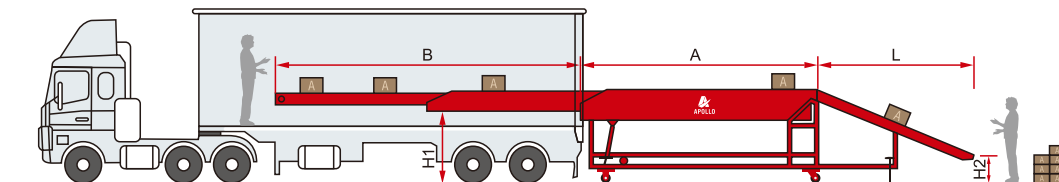

## 15020 Mobile Type :

Model	Sections	Total length C(mm)	Retracted length A(mm)	Extension length B(mm)	Height(mm)	Belt width(mm)	Mobile way
M3-6+8	3	14000	6000	8000	900	600/800/1000	Manual / Motorized
M3-7+9.5		16500	7000	9500	900	600/800/1000	Manual / Motorized
M4-5+10	4	15000	5000	10000	900/1050	600/800/1000	Motorized
M4-6+12		18000	6000	12000	900/1050	600/800/1000	Motorized
M4-7+14		21000	7000	14000	1100	600/800/1000	Rail
M4-8+16		24000	8000	16000	1100	600/800/1000	Rail

Remark: The above is APOLLO standard models, if you need other sizes, please contact our sales freely.

## 15030 High Chassis Type :

Model	Sections	Retracted length A(mm)	Extension length B(mm)	Slope L(mm)	Height H1/H2(mm)	Belt width(mm)	Installation way
V3-5+6.5	3	5000	6500	4000	1600/750	600/800/1000	Fixed / Mobile
V3-6+8		6000	8000	4000	1600/750	600/800/1000	Fixed / Mobile
V4-5+10	4	5000	10000	4000/4500	1600/750	600/800/1000	Fixed / Mobile
V4-6+12		6000	12000	4000/4500	1600/750	600/800/1000	Fixed / Mobile
V4-7+14		7000	14000	4000/4500	1600/750	600/800/1000	Fixed / Mobile

Remark: The above is APOLLO standard models, if you need other sizes, please contact our sales freely.

# High Chassis Type 15030

APOLLO telescopic conveyor frame use high strength steel plate, get the advantages of impact resistance, fatiguer resistance and high strength. APOLLO mobile telescopic conveyor is suitable for loading and unloading anywhere. The retractable arm can reach into truck or container by simply press buttons to realize the easy loading and unloading.

APOLLO only produce safe and stable equipment to reduce the risk of loading and unloading in logistics.

## APOLLO MEDIA CENTER

You can find more from our website:

- Rich resource media center and selection guide on how to choose APOLLO products.
- Application reports from different industries cover a variety of operational possibilities.
- Quick product survey and contact information of our system consultants.
